Trudy and Tom are in their late 60's and recently retired. They are active, like to travel, and have an interest in healthy living. They golf and play tennis and enjoy entertaining at their country club. They are accomplished professionals with an admiration for those in the medical field who care for others. They have been so fortunate they want to give back to their community but also expect a non-profit to be well run with low overhead. They want an organization to be sustainable.
